

Awareness & Training Seminar on How to Handle Homosexuality Issues, March 5-8, 2009

Theme: Exposing the Truth behind Homosexuality and the Homosexual Agenda

Background

Today, the well funded and well organized homosexual machinery is taking one country after another by de-criminalizing homosexual practices in those countries and legalizing gay marriages in some of them.

Uganda is now under extreme pressure from the same group to de-criminalize homosexuality. This group recently scored a landmark victory in a court case against the state in December 2008. Several homosexual groups are active in Uganda and are busy recruiting school boys and girls at an alarming rate using a variety of methods. These groups have support from within and outside the country, have well trained activists, who have a clear vision, an agenda and are determined to accomplish their objectives.

While most people have little factual information on the whole subject of homosexuality, the homosexual propaganda machinery is taking advantage of this, by feeding the un-suspecting world with information that is wrecking havoc in individuals, families and the society at large.

2. The Seminar March 5-7, (8.30-5.30pm)

It is against this background that Family Life Network and other stakeholders have organized a three-day seminar to provide reliable and up to date information to Ugandans and nationals from Africa so that they can know how to protect themselves, their children, families and can make informed decisions on this global subject.

The seminar will aim at accomplishing the following objectives: -

- Provide insight on the causes and treatment of homosexuality
- Provide practical tips on how to prevent homosexuality behavior in youth
- Expose the homosexual agenda, their tactics, strategy and methods of recruitment
- Provide information and guidelines on how to respond to the homosexual agenda in an organization, community or nation.

Main Speakers:

Dr. Scott Lively (USA), founder of Abiding Truth Ministries, a lawyer, human rights advocate, author, media personality with over 600 media appearances, international sought speaker with over 20 years experience in matters relating to homosexuality.

Mr. Don Schmierer (USA), has been in counseling and interpersonal work for over 40 years among students, professionals and leaders in universities, the military, institutions and corporations. He is also an author and has worked with homosexual recovery groups.
